ABOUT

GØRKEM DERELI is a DJ and producer from Nicosia, Cyprus, with more than 20 years in the music industry. His sets move between Afro House, House and Tech House: deep, soulful grooves early in the night and peak-time energy once the floor is ready. He releases his own music through his label PURECODE RECORDS and hosts the podcast series AFRO TNT VIBES.

TECHNICAL

DJ EQUIPMENT

- 3 × Pioneer DJ CDJ-3000, all on the latest and the same firmware
- 1 × Pioneer DJ DJM-A9 mixer
- Alternative mixers only with prior written approval: Pioneer DJ DJM-V10 or DJM-900NXS2
- All players and the mixer linked by Ethernet (Pro DJ Link) through a wired network switch, no Wi-Fi link
- The artist plays from Rekordbox-prepared USB drives; the USB ports of every player must work
- Players and mixer side by side in the standard layout: CDJ · CDJ · DJM · CDJ

BOOTH & MONITORING

- 2 × professional booth monitors at head height, left and right of the mixer, fed from the mixer's booth output
- Monitor volume controlled from the mixer; a sound engineer able to adjust the monitor mix during the set
- Solid, level and vibration-free table at about 100-110 cm, wide enough for the full setup
- Booth power on a separate circuit from the lighting, with 2 free sockets for the artist
- A small booth light and a clear booth: no drinks on the equipment table, only crew in the booth

SOUND & SCHEDULE

- A professional PA system suitable for the size of the venue, with subwoofers
- A qualified sound engineer present from line check until the end of the set
- Line check of all equipment at least 60 minutes before doors, or 30 minutes before the set
- Spare cables (RCA, XLR, Ethernet) and a spare USB-A to USB-C adapter in the booth
- Changeover handled by the venue's technician; the previous DJ leaves the players free for the last track
